

Compression Knee Immobilizer

Gentle Support, Lasting Relief

Product Overview

Its design combines comfort with functionality, providing secure immobilization while ensuring user comfort throughout the healing process.

Features and Benefits

- Contoured, reinforced stays with center "I" beam provide rigidity and a custom fit.
- Soft, foam laminate material adds comfort and resists staining. Can be easily trimmed to size.
- Adjustable elastic straps for even compression.
- Universal design fits most.

Clinical Applications:

- Post-surgical immobilization
- Patellar dislocation
- Patellar fracture
