

Product Overview

The neutral thumb position allows for opposition while fully immobilizing the thumb. The thumb spica brace automatically adjusts and conforms to each patient's anatomy, allowing one size to fit nearly all patients.

Features and Benefits

- Standard size fits virtually all patients, reducing need for excess inventory.
- Panel automatically expands, providing a custom off-the-shelf fit.
- Neutral thumb position allows opposition
- Auto-lock strap secures custom sizing.
- Cut low at the palmar crease to allow for 90-degree MP flexion.

Clinical Applications:

- Incomplete Fractures
- Tendonitis
- Soft Tissue Injuries
- Post-Cast Support for Healing
- Gamekeeper's Thumb
- DeQuervain's Tendonitis
- Scaphoid Injuries
