

Gauze Pads

Soft Woven Texture | Multi-Ply Absorbency | USP Compliant

Product Overview

These woven gauze pads are crafted from soft, pliable cotton and available in both sterile and non-sterile formats. Offered in 8-ply and 12-ply thicknesses, they're ideal for wound dressing, exudate absorption, and protecting injuries from contaminants. Whether used in hospitals, clinics, or at home, these gauze pads meet USP standards and support a moist wound environment to aid healing and comfort.

Features and Benefits

- **Highly Absorbent:** Effectively absorbs wound exudate and maintains moisture.
- **Soft, Pliable Texture:** Enhances comfort for patients and conforms easily to wounds.
- **Barrier Protection:** Helps shield wounds from contaminants and trauma.
- **Promotes Healing:** Supports tissue repair and creates a moist healing environment.
- **Sterile or Non-Sterile:** Options available for various levels of care and procedures.
- **Versatile Use:** Suitable for general wound care, surgical dressing, and outpatient applications.
